RE: Docket No. 98N-1265

Dear FDA Officials;

I am sending this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts my rights and physicians' rights to obtain healthcare products from the provider of my choice.

It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended!

I very much need the prescription I am presently receiving. It is a natural compounded drug that works for me during this menopausal time of my life. I have tried the patented drugs for this and had severe side effects.

Thank you for your time and please work to amend this legislation.

Sincerely,

Mrs Janet Ferguson

Janet J. Ferguson
